

Loop 303

Future State Route 801/Maricopa County Route 85 to Interstate 10

Please give us your input on the area issues and concerns.

The Arizona Department of Transportation (ADOT) is initiating an engineering and environmental study to identify and evaluate alternative routes for the proposed Loop 303 freeway extension south of Interstate 10 (I-10). The purpose of the study is to provide a freeway connection between the proposed SR 801 freeway, Maricopa County Route 85, and I-10. The proposed Loop 303 is another element of the Regional Freeway Program associated with the passage of Proposition 400 in November 2004. The purpose of the public scoping meeting is to provide an overview of the study area, process, and schedule, and to gather public input to assist in the identification of issues and concerns to be addressed during the study.

A brief presentation will begin at 6:15 p.m. The study team will be available to discuss the study and answer questions.

OPEN HOUSE MEETING
from 6 p.m.–8 p.m.

BRIEF PRESENTATION
at 6:15 p.m.

PUBLIC SCOPING MEETING LOCATION

Thursday, June 29, 2006
Desert Edge High School Cafeteria
15778 West Yuma Road
Goodyear, Arizona
